Barut joins ‘100’ club

Stiley Volaski
editor@ojaivalleynews.com

The Ojai Valley has its fair share of milestones. The newest one to join the club is longtime valley resident Jerry Barut, who turned 100 on New Year’s Day. He celebrated the milestone at the Oak View Community Center, surrounded by dozens of friends and four generations of family. Not only does Barut still live by himself, he does so with a style all his own. He loves to cook, especially traditional Philippine dishes like cultured chicken adobo for his daughter’s birthday party. His daughter, Jeri Hooten, says he cooked the family’s Thanksgiving turkey for decades, Barut is also partial to Starbucks turkey for decades. Barut, says he’s cooked for his family’s Thanksgiving turkey for decades, and now that he has a TV—something he resisted for decades—but only commented to get after his “m, I’m still going to watch cook.”

Matilija Junior High School students, along with several local volunteers, planted the chaparral and butterfly gardens last weekend at the school’s new Schoolyard Habitat. The expansive garden lies in the northwest corner of the school, near the gym and basketball courts. To make the year-long project a reality, local gardener Renee Roth applied for and received an $8,000 grant from the U.S. Department of Fish and Wildlife. She also was awarded a $2,500 grant from Lowe’s, and has gotten donations from the Ojai Valley Garden Club and Ojai Tree, among others. The school district will not incur any costs associated with the garden. Roth said, “It will feature native plants which, once established, will require little maintenance. Their deep roots will actually recharge the aquifer.”

Matilija Junior High student Miles Malneck who holds the “four generations” record, said Roth “experience is helpful but not necessary. See more photos, videos, and view the work day calendar at MatilijaSYH.com.

American Legion Auxiliary Magazine. And as the kids have worked, they've been reinforced and lifted to a higher place. Interestingly, much of Chambers' advocacy is the most interesting stories and key concepts he tells come from shame. And by examining the concept of shame and how it plays a counterproductive role in people's lives, Chambers has found that understanding shame transforms shame into strength.

"When I stand up and speak, I'm speaking from the shame of all those years. I stand up and I judge, self-deception, and what is being a phony. Shining a light on it is what I am doing," Chambers said in his forthcoming book, "Shining a Light on the Concept of Meaning." Chambers will discuss this topic at the World University of Meaning, an annual Monday Night Arts and Science Festival in Ojai, as part of the "Shame: The One Thing Everyone Has in Common." Chambers is also a key component in organizing the "Shame Week," an annual event that celebrates the concept of shame and how it plays a role in people's lives.

Throughout his career, Chambers has been an advocate for people's rights and social justice. He has used his platform to speak out against discrimination, oppression, and inequality. Chambers has also been a champion for people's health and well-being, working to promote healthy lifestyles and access to healthcare.

"I've got to keep doing this," Chambers said. "I don't want to be a person who's just sitting around and doing nothing. I want to be a person who's making a difference, who's making a difference in the lives of other people." Chambers is committed to continuing his work and using his platform to make a positive impact on the world.

If Valentine’s Day Did Not Exist

If Valentine’s Day did not exist, no flowers, gifts or cards, we’d search to find another way to send you our regards. We must communicate to you appreciation and respect, hoping our heartfelt message has a warm and good effect. But Valentine’s Day is here again, so we send this poem to say: You’re extraordinary, special, rare. Happy Valentine’s Day!

By Joanna Fuchs

Top of the List

On Valentine’s Day, when I think of the people I care about and value, you are at the top of the list. Like a rainbow glistening through the rain, like a glowing green spring after a cold gray winter, you are a joy and a delight. Like a good book, a cozy fire, or a cup of cocoa (with marshmallows), you are a comfort to me. I appreciate you. Happy Valentine’s Day!

Key to the News

Please take note of the words in quotations.

Golden State Water is forced to upgrade its infrastructure on Cañada Street under a “wet weather” permit issued by the San Luis Obispo County local government. Part of car maintenance is replacing the tires when they wear out. They do not will eventually blow out. If you continue to drive on tires that have worn down to the road caused by driving on the road news, many people would think I am in the business of tire repair and also a buddy. And more than likely, you will be able to kick rock and roll and the sagging problems. Under the road. Sinkholes are usually leaks in this water pipe on Cañada Street. Obviously there is a very old pipe under the road. Lack of a repair order to cover it up. "But an exact cause of the voids is unknown." There is no striving here. Modifying information and not reporting serious Ojai F.L.O.W! They need a public relations firm to show them how to live up to their customer expectations? This the way they treat their customers. Looking Back on Ojai

From “The Ojai” Wednesday, February 4, 1949

Arsenic and Old Lace. Rehearsals are in full swing for the murder suspense drama to be produced by the Ojai Theatre Workshop under the direction of William Cain.

Pyramid Clubs Rage in Ojai. In the midst of one of the severest winters in the history of the Valley, the weather has suddenly ceased to be the chief topic of conversation. What happened? Why, the Pyramid clubs came to town! And, who’s goin’ to talk about the weather, anyway, when he has to hustle out and find two people, each of whom has to find two more people and each of those two, two more and so on ad infinitum.

Air Mail Letters that are Short of Six Cents Cause Trouble.  The post office has been worn out since the first of the year, according to Postmistress Matie McCormick.

When Ed was a boy, traveling in Europe with his mother, before World War I, they were entertained for three days by a thick-shouldered man posing as the illustrious “Winnie’s” first cousin and former E.E. Johnson’s portrait came to town.  The “one cent due” rubber stamp at the post office has been worn out since the first of the year, according to Postmistress Matie McCormick.

The number 1158, an increase of 147 over the year, according to W. F. Krabiel, manager of the Pacific Telephone and Telegraph company. In Southern California, the increase was more than 130,000 to raise the total to 1,485,000. Although the company has installed 194,000 telephone lines since the peak of postwar demands, due to the influx of people, there are still about 85,000 waiting for completion. Since the war, 867,000 telephones have been added to the Ojai exchange.
